Education

ABES Engineering College B.Tech. in Electronics and Communication Engineering	2022 – 2026
Mahamana Malviya Inter College, Varanasi, UP Class XII	2020 – 2021

Technical Skills

- **Programming Languages:** Python, SQL, C
- **Data Analysis:** Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)
- **Data Visualization:** Power BI (DAX), Advanced Excel, Google Sheets
- **Database Management:** SQL Queries, Joins, Aggregations
- **Tools & Platforms:** Jupyter Notebook, Git, CodeChef, HackerRank
- **Core Skills:** Dashboard Development, Data Storytelling, Problem Solving

Experience

Implementation Engineer — CBO ERP Limited	<i>Feb 2026 – Present</i>
– Implement and configure ERP solutions for manufacturing clients by analyzing business requirements and mapping operational workflows. – Successfully implemented ERP solutions for 10+ client organizations, ensuring accurate system configuration, data migration, user training, and smooth go-live support. – Validate, clean, and migrate master and transactional data using Advanced Excel to ensure data accuracy and system integrity. – Perform User Acceptance Testing (UAT), identify system issues, and collaborate with cross-functional teams to resolve functional and data-related problems. – Create and verify reports, reconcile business data, and support clients with data-driven insights during ERP deployment. – Deliver end-user training and post-implementation support, improving user adoption and ensuring smooth business operations.	

Projects

Predict Blood Donation using Machine Learning <i>Tools: Python, Pandas, NumPy, Scikit-learn, TPOT</i>	<i>Aug 2025</i>
– Developed a machine learning model to predict repeat blood donors using the Blood Transfusion dataset (748 records). – Performed data cleaning, log transformation, and exploratory data analysis (EDA) to improve model performance. – Compared Logistic Regression and TPOT AutoML models; Logistic Regression achieved a ROC AUC score of 0.78.	
Indian Job Market Post-COVID Dashboard <i>Tools: Power BI, Advanced Excel, DAX</i>	<i>Jul 2025</i>
– Built an interactive Power BI dashboard to analyze hiring trends before and after COVID-19. – Created DAX measures, slicers, and maps to analyze industry, role, and skill demand. – Visualized regional employment trends to support data-driven insights.	

Extracurricular Activities

Light De Literacy (NGO) – Overall Coordinator	<i>Dec 2022 – Present</i>
– Led 5+ campus-wide drives with 200+ student participants, increasing awareness by 60%.	
Eco-NSS Club – Event Head	<i>Oct 2023 – Jun 2025</i>
– Organized plantation drives, clean-up campaigns, and sustainability workshops, increasing student participation by 50%.
